

MAERSK DECOM

Full-scope decommissioning solutions

Leveraging more than 50 years of experience and assets from the offshore support vessel and drilling industries.

DECOMMISSIONING SOLUTIONS

Project management and execution of:

1. Baseline surveys, engineering and planning
2. Flushing, cleaning and disconnection
3. Plug and abandonment activities
4. Bridges, topsides and sub-structure removal
5. Subsea facilities and infrastructure removal
6. Final survey and remedial activities
7. Recycling and waste management

SAFETY: Our goal is to achieve zero incidents, nothing less. Safety is embedded in all we do.
